The Highlands After-School Program serves children attending Brown, Day and Oak Hill Middle Schools. It's different from other programs because it's geared to meet the needs and likes of middle schoolers. It has a home base at Brigham House, with regular access to the Hyde Community Gym and other wonderful resources in the Newton Highlands area. Transportation is arranged from the middle schools daily. The program is open from school dismissal time until 6:00 p.m. and offers special programs on early release days. Activities include sports, arts, cooking, science, homework, field trips, community service and team building. It's a place to go and hang with friends, enjoy activities, and get a head start on homework. Our goal is to make this a happy place for children, teachers, and parents!
